An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: In the first line and first page of the specification insert: --This application is a CON of 09/443,177 filed 11/19/1999 PAT 6,271,537 which claims benefit of 60/109,329 filed 11/20/1998--.

The drawings filed 9/19/06 are objected to because the contact layer 116 does not appear to be properly shown, and figures 4-6 do not appear proper and may be considered new matter. The original drawings are acceptable and should be used because one of ordinary skill can make and use the invention with the original disclosure and the submitted new drawings raise a question of new matter. The original drawings are now considered acceptable.

The claims are considered allowable over the applied art for the reasons stated in the appeal brief. Furthermore, the claimed two-dimensional resonant cavity structure including sidewalls perpendicular to the substrate and opposing parallel sidewalls are considered unobvious over the suggestions of the prior art applied showing angled sidewalls in the two-dimensional structure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jerome Jackson Jr. whose telephone number is 571-272-1730. The examiner can normally be reached on M-Th.
